Objective

B.Tech Computer Science student with strong problem-solving skills, effective communication, and a keen interest in technology and business applications. Experienced in Python and application development, with the ability to quickly learn and adapt to new environments. Seeking an opportunity to contribute to organizational growth through a combination of technical knowledge, analytical thinking, and interpersonal skills.

Education

B.Tech. Computer Science

Expected Graduation: 2028

Velammal institute of technology

CGPA: 8.42 / 10

Skills

Core Concepts: DSA – Basics, Operating Systems – Basics, DBMS, Computer Networks – Basics

AI/ML: Supervised/Unsupervised Learning, CNNs, Image Classification, Model Evaluation.

Programming: Python

Web Technologies: HTML, CSS

Tools & Platforms: Git, Eclipse, VS Code, MS Office

Soft Skills: Effective Communication, Problem Solving, Time Management, Adaptability

Work Experience

Android Developer Virtual Internship

Jul 2024 – Sep 2024

AICTE

Projects

Cartoonification of Images | *Python, OpenCV*

Sep 2025 – Oct 2025

- Developed a Python application to transform images into cartoon-style versions using computer vision (CV) techniques.
- Implemented a responsive UI and optimized database queries for better performance.

VoIP Communication System | *Client-Server Architecture*

Aug 2024 – Nov 2024

- Developed a VoIP communication system using client-server architecture, enabling real-time audio transmission over computer networks.
- Optimized network protocols to reduce latency and improve call quality by 25%.

AI Call on Hold | *AI-Driven Call Management*

Dec 2024 – Mar 2025

- Developed an AI Call Hold system to automate call management, reducing waiting time by 30% and improving user experience.

Smart Agriculture | *VMamba for Disease Detection*

May 2025 – June 2025

- Automated Chili Leaf Disease Detection with the VMamba.
